Profile Summary

A passionate Full Stack Developer with knowledge of front-end and back-end technologies and the main focus on developing efficient, scalable, and user-friendly applications. I am competent in JavaScript, HTML/CSS, React, and Node.js, and committed to learning and continuous innovation.

Education

MCA, 2025

G H Raisoni University,
Amravati

BCA, 2023

Sant Gadge Baba Amravti
University

Internship

30 Days

Walmart Global Tech

Projects

31 Days

Cloudburst prediction system

- Developed a cloud burst prediction model using machine learning algorithms and meteorological data.
- Utilized metrics such as accuracy, precision, recall, and F1-score to evaluate the performance of the model.
- Visualized the model's predictions against actual cloud burst events to assess its effectiveness.

31 Days

Desktop Assistant Shine . AI

- Developed Shine A.I., a desktop assistant for diverse tasks,

including opening websites and delivering real-time information.

- Implemented voice recognition and integrated OpenAI for efficient command processing and insightful responses.

- Enhanced with seamless web searches, accurate time info, and customizable functionalities.

31 Days

weather app

React Weather App

This application allows you to check the weather forecast for various locations around the world using React.js.

Certification

- Professional Program in Front-End Web Development
- Computational Problem Solving
